**Re: Expanded Site Inspection - Carstab Corporation
OHD 000 724 138**

Dear Ms. Griffin:

PRC recently discovered typographical errors in the footnotes to several tables in the Carstab Corporation Expanded Site Inspection Report, submitted on May 7, 1993. Enclosed are corrected pages for insertion.

The affected tables are Table 1 (pages 24 and 26), Table 2 (page 27), and Table 5 (pages 35 and 38). The typographical errors resulted in incorrect units of measurement being specified in the footnotes for groundwater and municipal well sample results. The correct units are micrograms per liter (parts per billion).

Please note that the errors pertain to the footnotes only. Correct values were used in all aspects of data interpretation and in preparing the preliminary Hazard Ranking System (HRS) score. Therefore, the typographical errors will not affect the HRS score for the Carstab site.

If you have any questions or comments regarding this matter, please contact me at (513) 241-0149.

Sincerely,

Guy D. Montfort
Geologist
